

American Heart Association Instructor Course

Becoming an American Heart Association instructor is easy.

There are 4 simple steps – get started today!

1. Be accepted by your local AHA Training Center before enrolling in an Instructor Course and have a completed Instructor Candidate Application on file with that Training Center
2. Have current AHA provider status in the discipline for that Instructor Course and be proficient in all the skills of that discipline. Disciplines include ACLS, BLS, PALS, PEARS and Heartsaver.
3. Successfully complete the discipline-specific classroom Instructor Course.
4. Successfully be monitored teaching your first course within six months of completing the discipline-specific classroom Instructor Course. Training Center Coordinators can require additional monitoring.

Once you become an Instructor, you will have access to the most current emergency cardiovascular care science, course updates, training resources and tools through the online AHA Instructor Network. You will also be able to post class dates and times to reach more students through our public website.

Training: Every Third Friday 9a–2p

Location: AHA Training Center

Course Hours: 5

Fee: \$ 231

Group Rate: \$1,075 for 5 participants

Session: 1

Atlanta Technical College Community Training Center

The American Heart Association (AHA) Community Training Center at Atlanta Technical College offers life-saving CPR, First Aid, BLS, ACLS and PALS courses for first-responders, daycare workers and members of the general public.

Instructor Led Course Information

All AHA Instructor-led courses teach skills using the American Heart Association's proven practice-while-watching technique, which allows Instructors to observe students, provide feedback and guide students' through the skills testing. With their student manual for the course. Upon successful completion of the course, the student will receive a course completion card valid for 2 years. All students are required to have a book before, during, and after all AHA
